ABOUT ME

Frontend Developer with 1+ years of experience building responsive, scalable web applications. Proficient in React.js, Redux, and REST API integration, with strong expertise in modern UI frameworks and component-based architecture. Adept at converting Figma designs into pixel-perfect interfaces, improving performance, and creating intuitive user experiences. Passionate about writing clean, maintainable code and contributing to impactful, growth-driven products.

EDUCATION

- **Master of Computer Science**

  2022 - 2024

  Bharathidasan University

- **Bachelor of Computer Science**

  2019 -2022

  Bharathidasan University

Successfully completed a Frontend Development and React.js course at Besant Technologies, gaining hands-on experience in building responsive interfaces, component-based architecture, and modern UI development.

EXPERIENCE

2024 - Present

Jayam Web Solutions

Frontend developer

- Developed responsive and interactive web interfaces using React.js.
- Converted Figma designs into pixel-perfect, production-ready web pages.
- Integrated REST APIs and managed application state using Redux Toolkit.
- Utilized Git and GitHub for version control, collaboration, and code reviews.

SKILLS

- Html
- css
- Bootstrap
- tailwind

- Java script
- jquery
- React js
- Redux toolkit

- Php
- Laravel
- Codeigniter
- Wordpress

- MySql
- Responsive Web Design
- Git
- Github

PROJECTS

- Designed and deployed 20+ fully responsive multi-page websites using React.js, HTML5, CSS3, Tailwind CSS, with a focus on SEO optimization and performance improvements.
- Built admin dashboards with dynamic charts, filtering functionality, and interactive data tables using React.js and Chart.js.
- Developed medical data management dashboards supporting patient and doctor records with seamless CRUD operations via integrated backend APIs.
- Utilized Redux Toolkit for managing complex application state, ensuring smooth user interactions and scalable component architecture.
- Worked on multiple PHP Laravel and CodeIgniter projects, performing frontend enhancements, understanding folder structure and routing, and applying basic PHP knowledge for integration and debugging.
